CAPABILITY STATEMENT

HITS works alongside our technology partners to strategically plan, design, document, and test healthcare and health IT solutions from the ground up, taking collaboration to the next level. We leverage 20 years+ of military and civilian healthcare and health IT experience to create solutions that satisfy requirements of both the functional and technical communities. We utilize this multi-domain expertise to develop enterprise and interagency health IT solutions within the federal, state, and local government and commercial space.
